INSPIRE TECH AWARD
By CIO Academy Asia

NOMINATION FORM FOR CYBER RESILIENCE

The INSPIRE Tech Awards 2021 recognises end-user organisations who have emerged stronger by deploying technology to improve operational capabilities, introduce innovative business models and overcome challenges posed by shifting business environments.

This inaugural award is presented by CIO Academy. A total of 21 awards from 6 categories will be presented.

1.Eligibility
• The award is open to all end user organisations in Singapore, Malaysia, Indonesia, the Philippines and Thailand.
• All deployments and IT activities described in the nomination forms must have occurred in the last 12-18 months.
• Each organisation can be nominated for a maximum of 2 different categories. A different nomination form must be filled for each submission.
• Organisations are allowed to self-nominate or be nominated by others.

2.Open and closing dates for nominations
Nominations open on June 30 2021 and closes on Aug 12 2021. Please go to https://cioacademyasia.org/inspire-tech-awards-2021/ to download nomination form.

3.General Information
• The organisers may contact the proposer and/or nominee for more information.
• For queries, please contact *techawards@cioacademyasia.org*

4.Judging Criteria
Submissions will be selected based on the following criteria
• Business continuity and reputation
• Incidence detection and response time and speed of recovery
• Compliance and governance improvements
• Enhances data protection and safeguards customer privacy

5.Form
Please fill in the following

A.PROPOSER

Date Of Nomination:

C. TICK ONE SUB-CATEGORY TO NOMINATE

☐ Most Innovative Initiative for Cloud Security

Nominations must establish that the deployment of cloud security technology is aligned with security objectives.

☐ Best Use of Threat Intelligence for Proactive Cyber-defence

Nominations must demonstrate the use of threat intelligence to optimise cybersecurity postures and increase resilience in a changing threat landscape.

☐ Most Innovative Initiative for Zero-Trust Security

Nominations must establish that organisations have effectively adopted a zero-trust approach, adopting capabilities such as the use of advanced technologies for user verification.

☐ Best Cybersecurity Education and Awareness Initiative

Nominations must indicate that WFH and the rapid expansion of supply chain partners have led to enhanced security awareness, introduction of cyber hygiene education initiatives and the use of technology to enforce security policies.

Reason for Nomination:
Please describe in no more than 300 words how the tech project improves resilience, data protection and identity and access management; reduces vulnerabilities; and adds greater automation to security operations:

How did the project strengthen compliance and governance?
In 250 words, describe how the technology enables and improves some or all of the following: compliance and compliance requirements; governance; and visibility of operations across IT assets:

How did the technology enhance incident response?
In 250 words, describe how the tech project improves these factors: incident response, time to containment, ability to detect an incident, and automation of incident response:

Awards
Did the organisation win any awards within the last 3 years (if any):

Supporting Documents
You may submit relevant supporting documents to substantiate your submission. Attach your supporting documents into a ZIP file no larger than 10mb together with the nomination form.
